MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Assessment and Documentation of Antiterrorism/Force Protection Construction Requirements for MILCON Projects

1. Reference DAIM-FD memorandum, 30 Dec 99, subject: Interim Department of Defense Antiterrorism/Force Protection Construction Standards (Encl).
2. The Interim Department of Defense Antiterrorism/Force Protection (AT/FP) Construction Standards were issued on 16 Dec 99 and apply to MILCON for FY 02 and beyond. It is extremely important that you assess your AT/FP requirements and incorporate the appropriate construction mitigation measures into your MILCON projects. The risk and threat analysis, the associated construction scope, and required cost must be thoroughly documented on the project DD Form 1391. This issue will receive intense scrutiny during the budget approval process. Projects with DD Forms 1391 that do not fully address AT/FP or that do not provide the required justification for the associated scope and cost, risk deferral or reduction in Program Amount. The reference provides detailed guidance on the documentation needed.
3. Revised DD Forms 1391 for FY 02 MILCON projects must be submitted to HQDA (DAIM- FD) for approval by 15 April 00.
4. My point of contact is Mr. Stan Nickell, DAIM-FDC, (703) 692-9203
5. Your support of this action is critical to our efforts to obtain the resources to protect our soldiers, their families, and Army civilians.
